Mss, Mr,

The annual symposium 2010 of the Royal Belgian Society of Clinical Chemistry is entitled:

**“Where laboratory and toxicology
meet clinical pathology”**

As usual, the program is a mix of recent clinical updates completed with state of the art clinical chemistry. This year, we invited our colleagues from the Toxicological Society of Belgium and Luxembourg (BLT).

Selected topics are:

- A critical synopsis of current meta-analyses in the field of subclinical thyroid disease. (Prof. Dr. I. B. Velckeniers; Brussels)
- COD in allergy...from lab to patient. (Prof. Dr. M. Hagendorens; Antwerp)
- EC4 ... our lab into an European context. (Prof. Dr. P. Wallemacq; UCL)
- From MGUS to pathology.... (Prof. Dr. X. Bossuyt and Prof. Dr. M. Delforge; KUL)
- Triple Quad Mass spectrometers...tomorrow in our labs!?
- CDT... from lab to lawyers (Prof. Dr. J. Delanghe; UZ Gent)
- Ethylglucuronide... from lab to clinicians (Prof. Dr. M Ygles; Luxembourg)
- At the end of the program there is a workshop on validation in MS technics.

This symposium will take place on **April 22nd 2009 in Grimbergen**, Salons de Romrée. From 09:00 onward, attendants are welcomed with coffee and croissants. An excellent walking-dinner (hot and cold buffet) will be offered between 12:00 – 14:00.

News on subscription and subscription rates follows later.
